

Parental Advocacy Service

We provide independent advocacy as part of the **Families First For Children Pathfinder Programme** to help parents who engage with social services about their children. **This is a free and confidential service.**

Advocacy 1st helps you:

- ✓ Understand your rights
- ✓ Attend meetings about your children with social services
- ✓ Be included in decisions about child in need plans and child protection plans for your family
- ✓ Raise a concern or complaint about children's services

Our Advocates will empower and encourage you to speak up about decisions that could affect your everyday needs. We ensure your views and wishes are heard.
